Italian Literacy Teaching to adult immigrants

Italian literacy teaching activities take place at CAS - reception center in Crespadoro (Vicenza).

The activities take place twice a week, every Monday morning from 10:00 to 12:00 and, sometimes, on Friday afternoon from 2:00 to 4:00.

ABOUT THE ACTIVITIES

In the reception center there are two rooms used as classrooms. Every Monday morning, during the first part of the lesson, in one class the literacy course takes place (for those who must learn to write and read); in

the meantime, in the other classroom, a teacher works with students who already know how to read and write but they have to learn the Italian language.

In the second part of the lesson the two groups of students work together, discussing common topics useful for everyone, such as personal hygiene, respect for the rules and the people...

"I strongly believe that school, in every environment and therefore also in this center, is very important for the education. The school is for anyone a place of inclusion and realization of their own potential."

Serafino Caloi, the founder.
